DETAILED ACTION

1. The December 20, 2005 Final Rejection is withdrawn. Claim 24 should not have been withdrawn from consideration and should have been addressed upon the merits.
2. Claims 14-23 remain withdrawn from consideration.

Claim Rejections - 35 USC § 103

3. Claims 1-13 and 24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hormozi, et al.

Hormozi discloses in "Manufacturing process improvement: The role of vision systems" a camera used in inventory tracking. To tele-inventory at a shop object commodities to be inventoried for Hormozi would have been obvious to one of ordinary skill in the art. The motivation for having done such would have been to implement common knowledge means for taking images to track inventory. Official Notice is taken that the dependent features recited, e.g. camera/instruction-receiver-transmitter means, used by Applicant has been common knowledge in the art. To have provided such by Hormozi would have been obvious to one of ordinary skill in the art. Applicant's REMARKS have been reviewed, but are moot in light of the new grounds of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
